

Glossary

General Terms

- MAS: [My Action Sport \(https://myactionsport.com\)](https://myactionsport.com) - the landing pages for this platform
- MAR: [My Action Replay \(https://myactionreplay.com\)](https://myactionreplay.com) - an earlier version of this product
- Match - refers to when MAS is running, producing overlays and highlights and helping produce video. Data will come from you and/or a third party to keep track of scoring and real-world game events.
- Overlay - is a video graphic that is drawn to a video. These ingest data from scoring apps and product outputs such as time, score and team/player names
- Federated providers - refers to any third party who can either create data for the purposes of scoring, overlaying of graphics, and/or receive video output that is not a direct subsidiary of MAS

MAS Products

This documentation will often refer to third party tooling - usually in the context of providing match setup and/or scoring data. For the sake of clarity MAS provides three first-party products/applications:

- [Watch \(https://watch.myactionsport.com\)](https://watch.myactionsport.com) - a website that allows you to view and share your streams to the general public
- [Platform \(https://platform.myactionsport.com\)](https://platform.myactionsport.com) - the administrative website that allows you to control non-scoring aspects of your account like billing, users, overlays etc.
- [Scoring \(https://scoring.myactionsport.com\)](https://scoring.myactionsport.com) - a [web \(https://scoring.myactionsport.com/\)](https://scoring.myactionsport.com/), [iOS \(https://apps.apple.com/\)](https://apps.apple.com/), and [Android \(https://play.google.com/\)](https://play.google.com/) mobile apps for creating and scoring games and livestreams.
